# ACHIEVE THE COLOR YOU WANT WITH CHAMELEON COLORANT

SINCLAIR CHAMELEON COLORANT is a universal colorant specially formulated using high-quality pigments and the latest colorant technology. It blends accurately with water-based, solvent-based, and epoxy-based paints if the correct mixing method is followed.

Due to its high concentration, a tiny drop can already produce the desired color with specific shades from pastel to dark.

Inspired by nature, SINCLAIR CHAMELEON COLORANT was named after chameleons known for their ability to change color and blend into nature to protect themselves from predators.

Say goodbye to colorants that do not meet your expectations. Because with Chameleon Colorant, you can achieve any color you want!
